

02/11/2022

*Dear Educator,*

**COVID-19 update**

***Removal of Public Health Directions affective Monday 31 October 2022***

- *there are no Public Health Directions in effect requiring you to wear a face mask, but [you may still be asked to wear one](#).*
- *Decisions on [mandatory vaccinations for workers](#) are now made by the owner or operator of a business or facility*
- *Although isolation is no longer mandatory, if you're sick or test positive, we continue to recommend you [follow this advice](#)*

**TRAFFIC LIGHT System**

*The traffic light level – **Red, Amber** or **Green** – is based on the current level of risk in the community. For example the GREEN light reflects low cases or risk of transmission within the community whereas the RED light indicates high case numbers and a heightened risk of infection within the community and the need to wear a mask or adhere to other Health directives. You will see the traffic light system poster shared on Queensland Government and Health social media pages when the number of cases or the level of risk to the community changes.*

*Find out about the different traffic light levels and how they can help you make informed decisions to enhance your personal safety:*

*You can wear a mask at any time if you choose to.*

*The Traffic light poster and relevant QLD Gov Health link can be found under COVID resources on the Enhance Educator Portal*
