

## COVID-19 update - Latest information - 11 November 2022

As a continuance of our recent COVID-19 email outlining the recently implemented Traffic Light System please see an update as below, due to a change in status for Queensland residences and businesses.

The Premier has announced that Queensland is moving from the green [traffic light status](#) to **Amber** (Tier 1). This means there are moderate rates of community transmission of COVID-19.

In addition to precautions you should take for the green traffic light status, such as staying home when sick and testing for COVID-19 if you have acute respiratory symptoms, you should also follow the **Amber** advice:

- wear a mask
  - in healthcare settings
  - indoors, if you can't physically distance
  - on public transport
  - if you are older or medically at risk
  - if you're around people who are vulnerable to COVID-19
- take a rapid antigen test (RAT) every 2 days if someone in your household has COVID-19.

The advice in the traffic light system is a recommendation only and not a legal requirement.

**Managing illness** and effective hygiene practices are key to limiting community transmission of disease.

As recommended, please continue to adhere to your ongoing health and hygiene practices within your service, reminding children (and families) to utilize the hygiene stations within your service, wash hands regularly, cover their mouth and nose with a tissue when coughing or sneezing, open windows to promote air flow and or conduct sessions outside where practicable.

#### Further information

Stay up-to-date by regularly checking the [Queensland Government COVID-19 website](#) and visiting the COVID-19 pages on the [Department's website](#).

Alternatively, please feel welcome and encouraged to connect in with your Practice Mentor or our management team, should you have any questions or concerns.

Kind regards,
